## **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 4, insert --1-- before "claim".

2. The following is an examiner's statement of reasons for allowance:

Case (U.S. Patent 3,918,033) discloses, e.g. as shown in FIG. 2, a memory cell comprising a thyristor 20, a diode 22, and an access transistor 21, but their interconnection is not the same as the memory cell claimed in claims 1 and 14.

Levy et al. (5,535,156) disclose a memory cell comprising either (1) access transistors 92-93 and a thyristor 91 as shown in FIG. 8A; or (2) a diode 112 and a thyristor 111 as shown in FIG. 9A; but Levy et al. do not show a memory cell comprising all three elements of access transistor, diode, and thyristor as claimed in claims 1 and 14. Furthermore, memory configuration shown in FIG. 14 of Levy also does not teach the claimed limitations of claim 8.

Therefore, Case and Levy et al., taken individually or in combination, do not teach the claimed invention having limitations as claimed in claims 1, 8 and 14.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
